

1st Theodor Escherich Symposium on Medical Microbiome Research

We are proud to announce the 1st Theodor Escherich symposium on medical microbiome research. The symposium will host international experts in the field and should foster the medical perspective of microbiome research.

Date: Monday, 17th of November 2014

Location: Lecture Hall Center,
Auenbruggerplatz 15, Medical University
of Graz, Austria

Confirmed speakers:

Martin J. Blaser – New York University Langone Medical Center, USA

Maria Gloria Dominguez-Bello – New York University Langone Medical Center, USA

Arthur Kaser – University of Cambridge, UK

Alice C. McHardy – Heinrich Heine University, Düsseldorf, Germany

Maja Rupnik – University of Maribor & NLZOH, Maribor, Slovenia

Ernst Holler – University Medical Center, Regensburg, Germany

Christoph Högenauer – Medical University of Graz, Austria

Especially young scientists are encouraged to submit abstracts for poster presentations or short oral communications.

Program details & abstract submission: www.medunigraz.at/escherich2014

Contact: escherich2014@medunigraz.at

Organizers:

Theodor Escherich Laboratory for Microbiome Research

International PhD Program DK-MOLIN

CF Bioinformatics, Austrian Centre of Biotechnology

Supported by the Austrian Science Fund FWF

1st Theodor Escherich Symposium on Medical Microbiome Research

PROGRAM

17th of November 2014

Hörsaalzentrum (HS D, HS E1), Auenbruggerplatz 15, Medical University of Graz

Time	Title	Person
8.30-8.45	Welcome & Introduction	G. Gorkiewicz (MUG, AT)
8.45-9.25	Keynote: Choreography of early life development by microbes	M.J. Blaser (NYU, USA)
9.30-10.05	State-of-the-art lecture 1: C. difficile and the gut microbiome	M. Rupnik (Univ. Maribor/NLZOH, SLO)
10.05-10.45	Coffee break & Posters	
10.45-11.20	State-of-the-art lecture 2: Gaining Insight into the Uncultured Microbial World by Computational Metagenome Analysis	A.C. McHardy (Univ. Düsseldorf, GER)
11.20-12.10	Selected short talks	
12.10-14.00	Lunch & Posters	
14.00-14.40	Keynote: The human microbiome: impacts and potential for restoration	M.G. Dominguez-Bello (NYU, USA)
14.40-15.15	State-of-the-art lecture 3: Genes, environment and microbiota: Does ER stress convert autophagy defects into Crohn's disease?	A. Kaser (Univ. Cambridge, UK)
15.15-15.50	State-of-the-art lecture 4: The intestinal microbiome and GvHD - new insights into an old association	E. Holler (Univ. Regensburg, GER)
15.50-16.20	Coffee break & Posters	
16.20-16.55	State-of-the-art lecture 5: Application of fecal microbiota transplantation in the clinical setting - C. difficile colitis & beyond	C. Högenauer (MUG, AT)
16.55-17.45	Selected short talks	
17.45-17.50	Closing Remarks	C. Högenauer (MUG, AT)
