SURVEY
SOFT SKILLS OF THE STUDENTS

About...

Six partner universities from Latvia, Italy, Lithuania, the Netherlands, Poland and Austria are implementing Erasmus+ Strategic Partnership project which aims to elaborate different study and teaching materials on so called "soft skills" of the student. We asked to the students what they know about soft skills.

Total number of participants
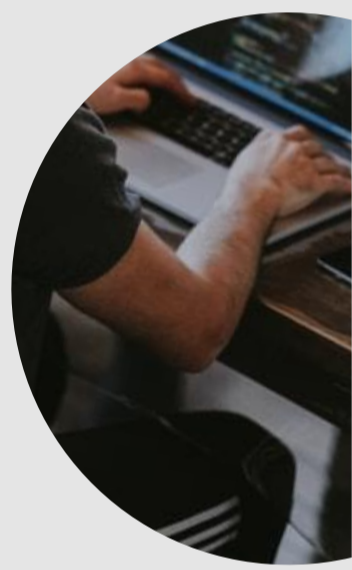

340
STUDENTS

● Bachelor ● Master ● Doctoral

## WE ASKED TO THE STUDENTS -
## HAVE YOU HEARD TERM "SOFT SKILLS"?

70 %   30 %

Students think, that most important "soft skills" are:

Students

Communication	Critical thinking	Teamwork	Time management	Positive attitude	Conflict management	Leadership	Multicultural commun...	Setting goals
23%	19%	12%	11%	11%	9%	6%	5%	4%

We asked...

Do you have such courses in your study program which aim to develop your soft skills?
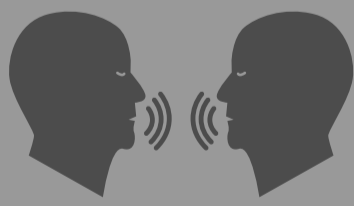

46%   54%

Do you think your University pay sufficient attention to development of soft skills of the students?

46%   54%

Which skills students would like to develop?

16%
Communication skills

16%
Critical thinking

13%
Conflict management

11%
Time management and effective planning

10%
Leadership

This survey shows that Universities should pay much bigger attention to the development of "soft skills" of the students.

In frame of the project we will develop different teaching materials, including mobile application, to train soft skills of the students.
