**European University Continuing Education Network (EUCEN)**

#### **Abstract**

OBSERVAL-NET intends to set up a stakeholder-centric network of organisations supporting VNIL in Europe. The core of the network lies in the formation of national working groups. Each national working group will organise a series of national stakeholder forums, bringing together key stakeholders in VNIL including policy-makers to coordinate policy implementation in the field.

The groups will be supplemented by a cross-national level of networking. It will be made up of three expert committees plus a policy group which will examine:

1. the role of grassroots initiatives in supporting VNIL, and strategies towards their mainstreaming
2. success factors in the implementation of VNIL in employment settings
3. the competence profile required for VNIL advisors

#### **Aims:**

- Creating transversal networks for developing models of best practices in VNIL
- Developing comprehensive and flexible models for VNIL practices and recommendations
- Mainstreaming these practices at national-regional level
