

The Conference on Interdisciplinary Musicology is a forum for constructive interaction among all musically and musicologically relevant disciplines, including acoustics, aesthetics, anthropology, archeology, art history and theory, biology, composition, computing, cultural studies, education, ethnology, history, linguistics, literary studies, mathematics, medicine, music theory and analysis, perception, performance, philosophy, physiology, prehistory, psychoacoustics, psychology, semiotics, sociology, statistics, and therapy. CIM especially promotes collaborations between sciences and humanities, between theory and practice, as well as interdisciplinary combinations that are new, unusual, creative, or otherwise especially promising.

3rd Conference on Interdisciplinary Musicology
Tallinn, Estonia, 15–19 August 2007

3rd Conference on Interdisciplinary Musicology
