We invite you to participate in an intellectually stimulating roundtable discussion on the 2024 U.S. Presidential Election, a particularly compelling race between the Harris/Walz and Trump/Vance tickets. Given the significance of this election in contemporary American politics, our panel will offer real-time, nuanced analysis of the shifting dynamics, strategic approaches, and foundational factors that are shaping this year's electoral landscape.

In addition to examining the immediate electoral outcomes, we will explore the broader implications for the U.S. political system and governance structures. This event provides a valuable opportunity for scholars, analysts, and students alike to engage with the critical issues at stake and to consider the long-term consequences of the election's results.
