

# GRAND OPENING

## WORKSHOP PROGRAM

# THE LAB IS ALIVE

**21.11.2025**

**From 14:00 until 16:00!**

**PresentDead LAB**

**(Mozartgasse 14, 00250008)**

**Open to all curious minds— students, professors, researchers, and the lab-curious!**

The different workshop stations can be visited freely by participants, allowing them to follow their own path and explore each activity at their own pace.

### THE BONES TELL ALL (MOSTLY)

Bioanthropology & Human Remains: Learn the basics of skeletal analysis and how we interpret traces of life (and death) from human remains.

### ADMIN & CONQUER

Administrative & Project Management: A practical session on how to navigate project logistics, research coordination, and funding management.

### DIG IT UP, SHAKE IT DOWN!

Geoarchaeology & Sediment Analysis: Discover how we analyze soils and sediments to reconstruct ancient environments and site formation processes.

### CTRL+SKELETAL: 3D & GIS MAGIC

3D Modeling & GIS: A short demonstration of how 3D modeling, via photogrammetry, integrates with GIS to visualize, analyze, and manage archaeological remains.

### TEXT ME, MAYBE? HISTORY DECODED

History & Textual Analysis: A dive into ancient sources, textual interpretation, and historical inquiry with a critical twist.

### PRESENTDEAD, LONG LIVE THE PROJECT!

**Meet the PI:** An open corner to meet the Principal Investigator of the ERC PresentDead project. Ask your burning questions about research vision, grave reopenings during the early Medieval period, and the challenges of leading a major European project.

**Snacks, coffee, drinks, and good vibes provided!**
