# Certificate in Inter-American Cultural Studies

Interdisciplinary competencies for students  
of the humanities and social sciences

**Inter-American Studies is a new and exciting research field. This new interest in Inter-American relationships was sparked by processes such as globalization and transnational migration – developments that transform cultural identities and challenge conceptions of 'self' and 'other.' Especially in Europe, which itself is in the midst of negotiating an 'European identity' in addition to national and regional ones, changing reference points demand re-conceptualization of academic perspectives. For European students of Inter-American Studies, the Americanness' of the Americas and the changing qualities of 'self' and 'other' are of particular interest, encouraging a redefinition of positions and mental frameworks.**

The certified thematic focus in Inter-American Cultural Studies offers an overview of relevant topics in this new research area and supports students in strengthening their reflexive competencies. The certificate comprises course amount to 20 ETS. It is open to all students of the humanities and social sciences of the University of Graz.
