EDU4Standards.eu Seasonal School on Standardisation in line with European Values and Interest: Stand-EUVI PhD School Collapse all

EDU4Standards.eu
Empowering Standardisation through Education

This Stand-EUVI PhD school in the format of a seasonal school is a pilot project of the Horizon Europe project EDU4Standards.eu. Moreover, it is an integral part of the HFDT-DQ.

EDU4Standards.eu is implementing a series of pilot programmes designed to integrate and refine the teaching of standardisation in various educational and professional settings across Europe. These pilots are central to our mission of enhancing standardisation education, addressing the critical need for skilled standardisation experts, and ensuring that the curriculum remains relevant and effective for both current and future needs.

The Stand-EUVI PhD school starts on Tuesday, February 3rd, with an informal get-together where all participants can get to know each ot her and exchange ideas on standardisation and EU values and interests (Stand-EUVI). During the PhD school participants will acquire basic knowledge of "Stand-EUVI", which will be integrated into their own specific work/research environment.

To all participants: We are committed to "Open Educational Resources", OER.
