INVITATION TO CONNECT W/ MOTHERS IN ACADEMIA

Dear mother* in science! We are Lara Trussardi and Sarah Lindner, both mothers and scientists at University of Graz. We were inspired by the network motherhood & science, which is well established in Germany and parts of Austria. We want to form a local group in Graz. The idea is to create a platform for exchange of experiences and mutual support for all those who identify as mothers. For now, we're planning a quarter-yearly meeting. The upcoming one will take place on April 11th 2023, 1-2:30 pm in the children's room of University of Graz (ground floor, main library). We're looking forward to seeing you!

Mar 11, 2024: Peer Mentoring spots left, and: Erratum Visiting Awards

Dear colleagues,

with this exceptional newsletter edition we want to announce the following:

Deadline extension: Until March 22 you can apply for the PostDoc Peer Mentoring Programme

The semester start is a busy time and we haven't received as many applications as expected. [Apply by Friday, March 22, noon!](#)

Peer Mentoring as we do it here means to have access to a supportive network of researchers in a similar situation, who will share their experience with you over the course of a year, while you take or plan crucial career steps.

To inspire your group' work, experts & trainers will be coming to you.

Benefits according to previous participants:

- making strong connections to people from other disciplines
- getting access to info relevant for you from those in the same situation
- becoming more confident in your identity as a researcher, academic
- becoming more familiar with relevant funding bodies & schemes
- having a safe, trusted group in which to freely express & share challenges and joys
- becoming more goal-oriented, able to plan and make decisions well

Find the whole contents of the programme here: [20231215_CallPeerMentoringTeam2024.pdf \(uni-graz.at\)](#)

Erratum: Until April 1 you can apply for 4-8 Weeks Visiting Awards for High Potentials.

These are intended to deepen collaboration with outstanding international partners – but sadly are 4-8 weeks, not months (as written in our Mar 5 newsletter).

We apologize for this error! Find the details here: [Visiting Awards for High Potentials \(uni-graz.at\)](#)

Kontaktpersonen für Rückfragen: Dr. Karin Kusterle (DW 3992), Dr. Melanie Lenzhofer (DW 1273).

We wish you a wonderful start to the week!

Johanna for the team of the PostDoc Office

P.S. Are you spontaneous and eager to learn about scientific publishing? You are warmly invited by our colleague Lisa Schilhan to this great workshop on Wednesday:

- **Mar 13: Autorenschaftskonflikt: Was nun?** w/ Sabine Chai ([Register here](#))
