

Looking at how cycling can help to realise 15 minute cities in low density, suburban neighbourhoods

SPECIFIC aims to combine social practice theory, thinking on socio-spatial justice and urban development, and transdisciplinary action research to co-create a tool to facilitate successful implementation of the 15MC concept in context-sensitive ways in low-density, peripheral settings in small and medium-sized cities in Europe

- Running time: 01/2024-12/2026
- Funding: JPI Urban Europe (EC & ESRC): € 1,7 Mio /€ 200.000
- Lead: Tim Schwanen (U of Oxford; local PI: Anke Strüver)
