

47th Austrian Linguistics Conference (OELT)

December 8-10, 2023

3rd Circular

Dear Colleagues,

we thank you very much for the numerous contributions to the workshops and the general session.

Please find attached the preliminary conference program. We kindly ask all workshop organizers to notify us of any changes in the program no later than 11/30/2023, as the final program will be available for download on our [homepage](#) no later than 12/1/2023.

For organizational reasons, we also ask the workshop organizers to let us know as soon as possible which authors will actually come to Graz.

Every room is equipped with a PC and a projector. Since we also use rooms of other departments, we do not have administrator rights for software installation on all PCs. We therefore ask you to use only common software for your presentation. Please bring your presentation on a flash drive, as we cannot guarantee that the connection of your laptop will be possible.

Please remember to register in time.

The city council of Graz plans a reception in the city hall on Friday (12/8/2023).

Kind regards,

the organizers:
