## CONTENTS

(Engl.) = Paper in English with German summary

(Germ.) = Paper in German with English summary

SKUBATZ H. & HOWALD N.: <i>cis</i> -vaccenic acid and squalene in the mitochondria of the <i>Sauromatum guttatum</i> appendix. (Engl.)	189
JAKUCS E.: Ectomycorrhizae of <i>Populus alba</i> L. in South Hungary. (Engl.)	199
KOVÁCS G. M. & SZIGETVÁRI C.: Mycorrhizae and other root-associated fungal structures of the plants of a sandy grassland on the Great Hungarian Plain. (Engl.)	211
GONZÁLEZ-RODRÍGUEZ A. M., MARTÍN-OLIVERA A., MORALES D. & JIMÉNEZ M. S.: Gas exchange characteristics of <i>Chamaecytisus proliferus</i> subsp. <i>proliferus</i> var. <i>palmensis</i> (tagasaste) measured in spring-summer under field conditions. (Engl.)	225
GLASENČNIK E., RIBARIČ-LASNIK C., MÜLLER M., GRILL D. & BATIČ F.: Impact of air pollution on genetic material of the shallot ( <i>Allium cepa</i> L. var. <i>ascalonicum</i> ), exposed in the vicinity of major slovene local emission sources in 1999. (Engl.)	237
RUBINIGG M., ELZENGA J. T. M. & STULEN I.: Effects of NaCl salinity on nitrate uptake and partitioning of N and C in <i>Festuca rubra</i> L. in relation to growth rate. (Engl.)	251
ALI R. M.: Effect of nicotinic acid and nicotinamide adenine dinucleotide on growth and content of oil, glycerol and ricinine alkaloids of salinity stressed <i>Ricinus communis</i> L. (Engl.)	269
USENIK V. & ŠTAMPAR F.: Influence of scion/rootstock interaction on seasonal changes of phenols. (Engl.)	279
WIESER G., PETERS J., LUIS V. C., MORALES D. & JIMENEZ M. S.: Ecophysiological studies on the water relations in a <i>Pinus canariensis</i> stand, Tenerife, Canary Islands. (Engl.)	291
MITIĆ B.: <i>Iris adriatica</i> (Iridaceae), a new species from Dalmatia (Croatia). (Engl.)	305
VUJANOVIC V. & BRISSON J.: Microfungal biodiversity on <i>Fagus grandifolia</i> in an old-growth forest of Eastern North-America. (Engl.)	315
Recensiones	267, 278, 290, 328

New taxa and/or new combinations as well as typifications:

<i>Iris adriatica</i> TRINJASTIĆ ex MITIĆ, spec. nova (Iridaceae)	307
