## CONTENTS

(Engl.) = Paper in English. – (Germ.) = Paper in German

SILBERBAUER-GOTTSBERGER I. & TEPPNER H. (eds.): Summaries of the contributions to a biological colloquium in honour of Gerhard GOTTSBERGER on the occasion of his retirement, Ulm (Germany), February 3, 2006 . . .	161–229
WEBERLING F.: Vita Gottsbergiana (with list of publications). (Germ.) . . . . .	163
EHRENDORFER F.: Hybridization increases species diversity in evolution. (Engl.)	181
TEPPNER H.: Still open questions in floral ecology of <i>Calliandra</i> ( <i>Mimosaceae</i> ), <i>Lycopersicon</i> ( <i>Solanaceae</i> ) and <i>Pharus</i> ( <i>Poaceae</i> ). (Engl.) . . . . .	187
LIEDE-SCHUMANN S.: New results in floral biology of <i>Asclepiadoideae</i> ( <i>Apocynaceae</i> ). (Engl.) . . . . .	191
KALKO E. K. V.: Fruits and bats: Supply and demand in the tropical rainforest. (Engl.) . . . . .	195
PIECHOWSKI D.: Bat Visits and changes in floral nectar during anthesis of <i>Parkia pendula</i> ( <i>Mimosaceae</i> ). (Engl.) . . . . .	203
KRAUSE L. & GOTTSBERGER G.: Elevated fruit production of a secondary rainforest tree at the forest edge – What does it depend on? (Engl.) . . .	205
FREIBERG M.: Evolutionary trends in pollination syndromes of neotropical <i>Gesneriaceae</i> . (Engl.) . . . . .	207
STEVENS A.-D.: Botanical Gardens and their role in ex situ conservation and research. (Engl.) . . . . .	211
FREIBERG E. & FREIBERG M.: Green roofs – pollination ecological islands in the city. (Engl.) . . . . .	215
TEICHERT H.: Pollination and floral biology in five species of the family <i>Annonaceae</i> in French Guiana. (Engl.) . . . . .	219
AYASSE M.: Chemical mimicry in sexually deceptive orchids of the genus <i>Ophrys</i> . (Engl.) . . . . .	221
GOTTSBERGER G.: Closing words to the biological colloquium, Ulm, February 3, 2006. (Germ.) . . . . .	225
TEPPNER H.: Notes on terminology for <i>Mimosaceae</i> polyads, especially in <i>Calliandra</i> . (Engl.) . . . . .	231
TSCHAIKNER A., INGOLIĆ E. & GÄRTNER G.: Observations in a new isolate of <i>Coelastrella terrestris</i> (REISIGL) HEGEWALD & HANAGATA ( <i>Chlorophyta</i> , <i>Scenedesmeaceae</i> ) from alpine soil (Tyrol, Austria). (Engl.) . . . . .	237
REITER R., GREEN A. T. G., SCHROETER B. & TÜRK R.: Photosynthesis of three <i>Umbilicaria</i> species from lichen-dominated communities of the alpine/nival belt of the Alps measured under controlled conditions. (Engl.) . .	247
TOPAL S., KOCAÇALIŞKAN İ., ARSLAN O. & TEL A. Z.: Herbicidal effects of juglone as an allelochemical. (Engl.) . . . . .	259
TURKER M., TEMİRCİ C., BATTAL P. & EREZ M. E.: The effects of an artificial and static magnetic field on plant growth, chlorophyll and phytohormone levels in maize and sunflower plants. (Engl.) . . . . .	271
OSTERC G., ŠTEFANČIĆ M., SOLAR A. & ŠTAMPAR F.: The effect of severance date on rooting ability of chestnut cuttings and associated changes in phenolic content during adventitious root formation. (Engl.) . . . . .	285
SPETA F.: Biographical and botanical notes on two Upper Austrian specialists for <i>Pedicularis</i> : Hans STEININGER (1856–1891) and Josef STADLMANN (1881–1964). (Germ.) . . . . .	295

New taxa and/or new combinations as well as typifications:
