

We work for
tomorrow

UNIVERSITÄT GRAZ
UNIVERSITY OF GRAZ

Apply now

At the University of Graz, researchers and students work across a broad disciplinary spectrum to enlarge our knowledge, and find strategies to deal with challenges our society is confronted with and to shape tomorrow's world. The University of Graz is a place which combines high quality academic research and teaching, where achievement is rewarded, careers are promoted, and social diversity is encouraged – all within a modern, award-winning working environment. Our motto:

We work for tomorrow. Join us!

The Institute of Earth Sciences is looking for a

University Assistant without doctorate (PhD Student)(PhD Student) in Geology / Earth Surface Processes (m/f/d)

30 hours a week expected

employment until 28.02.2026

position to be filled as of 01.03.2022

Your duties

- Organize and conduct independent research in the field of Earth surface processes in the Dinaric Alps, including field and laboratory work
- A dissertation in the field of Earth surface processes, focused on reconstructing continental paleoenvironments and paleotopography by combining sedimentological field observations, stable isotope geochemistry, and geochronology
- Interpret the obtained results within the regional tectonic framework
- Present and publish scientific results at (international) conferences and in peer-reviewed scientific journals
- Write a dissertation and Doctoral degree
- Conduct and assist in teaching activities (2 hours per semester in average)
- Participate in the NAWI Graz Stable Isotopes Core Facility

Your Profile

- Curious researcher with interests in Earth surface processes, tectonics, and paleoclimate
- Strong background and enthusiasm in conducting field work
- Ready to work in various laboratories, in particular the NAWI Graz Stable Isotopes Core Facility, and desire to conduct laboratory work to improve geochronological constraints
- Capable of combining a diverse set of geological data and evaluate them within a geodynamic framework
- Willingness to collaborate with scientists from various institutes and disciplines to address the project's aims
- Written and spoken fluency in English; proficiency in German is beneficial, but not required
- Completion of an MSc degree (or equivalent) in Earth-/Geosciences or a related field prior to appointment

Our Offer

Classification

Salary scheme of the Universitäten-KV (University Collective Agreement): B1

Minimum Salary

The minimum salary as stated in the collective agreement and according to the classification scheme is EUR 2.971,50 gross/month (for full-time employment). This minimum salary may be higher due to previous employment periods eligible for inclusion and other earnings and remunerations.

We offer you a job with a lot of responsibility and variety. You can expect an enjoyable work climate, flexible work hours and numerous possibilities for further education and personal development. Take advantage of the chance to enter into a challenging work environment full of team spirit and enthusiasm for your job.

Application deadline: 02.02.2022

The University of Graz strives to increase the proportion of women in particular in management and faculty positions and therefore encourages qualified women to apply.

Especially with regard to academic staff, we welcome applications from persons with disabilities who meet the requirements of the advertised position.

Applicants with proof of COVID-19 vaccination will be given preference if equally qualified. For further information, please refer to our [general application regulations](#).
