# Time Schedule

9:00 – 9:15	<b>Opening</b>
9:15 – 10:00	<b>Introducing Science Park Graz</b> <b>Bernhard Weber</b> From research results to business models
10:00 – 11:00	<b>Rainer Daniela</b> (ST) – Recombinant chemokine downstream processing ( <i>Prof. Kungl, Pharmaceutical chemistry</i> ) <b>Noueldin Mohammed</b> – Cellular type-specific recycling of tetrahydrobiopterin by dihydrofolate reductase ( <i>Prof. Schmidt, Pharmacology and toxicology</i> ) <b>Kalt Marc-Manuel</b> (ST) – New antiplasmodial drugs: Development of Jacaranone-based alkaloids ( <i>Prof. Weis, Prof. Presser, Pharmaceutical chemistry</i> ) <b>Kitic Nikola</b> – Preparation and characterization of glycosaminoglycan chemokine co-Receptors ( <i>Prof. Kungl, Pharmaceutical chemistry</i> )
11:00 – 11:30	<b>Coffee break</b>
11:30 – 12:00	<b>Durchschein Christin</b> (ST) – Investigations of Zicao samples and Shikonin derivatives regarding its anti-cancer effects in melanoma cells ( <i>Prof. Bauer, Pharmacognosy</i> ) <b>Gomes Lopes Diogo</b> – Hot-melt coating with lipid excipients for user-friendly solid oral dosage forms ( <i>Prof. Zimmer, Pharmaceutical technology</i> )
12:15 – 13:15	<b>Plenary Lecture HS 03.01</b> <b>Prof. Lukas Huber – Medical University of Innsbruck</b> Phenotypic drug screening in tissue like co-culture models
13:15 -14:15	<b>Lunch break</b>
14:15 – 14:45	<b>Joana Pinto</b> (ST) – Characterization of salbutamol sulphate powders after spray-drying ( <i>Prof. Roblegg, Pharmaceutical technology</i> ) <b>Turek Ivana</b> – Headspace analysis of the smoke of <i>Echinops kebericho</i> Mesfin ( <i>Prof. Bucar, Pharmacognosy</i> )
14:45 – 15:15	<b>Postersession:</b> <b>Winkler Sophie</b> – Glycosaminoglycans and Chemokines: A Chance Encounter? ( <i>Prof. Kungl, Pharmaceutical chemistry</i> ) <b>Hochegger Patrick</b> – Synthesis and antiplasmodial activity of quinoline-4-carboxamides ( <i>Prof. Weis, Pharmaceutical chemistry</i> ) <b>Schachner Anna-Laurence</b> – Development of a nanoparticle-based miRNA delivery system to regulate adipogenesis ( <i>Prof. Zimmer, Pharmaceutical technology</i> ) <b>Pan San-Po</b> – Inhibition of COX-2 enzyme activity and COX-2 expression by extracts of <i>Epipremnum pinnatum</i> ( <i>Prof. Bauer, Pharmacognosy</i> ) <b>Derler Rupert</b> – Characterization of heparan sulfate from different lung tissue samples ( <i>Prof. Kungl, Pharmaceutical chemistry</i> )
15:15 – 15:30	<b>Closing remarks</b>
15:30	<b>Get together</b>
