

**Institut für Pharmazeutische  
Wissenschaften**

**VORTRAGSANKÜNDIGUNG**  
Im Rahmen des Pharmazeutischen Kolloquiums &  
8<sup>th</sup> Pharma DocDay

24. June 2016, 12:15  
HS 03.01, Schubertstraße 1

**Phenotypic drug screening in tissue like  
co-culture models**

**Lukas A. Huber, Ph.D.**  
Professor & Head of Division of Cell Biology  
Medical University Innsbruck

Lukas' main scientific interests are the spatio temporal regulation of signal transduction through scaffold complexes and their subcellular localization, proteomics, mouse genetics, and translational cancer research. On top of his professorship he is CSO at the Center for Personalized Medicine (ONCOTYROL, Innsbruck) and Director of the Austrian Drug Screening Institute under the patronage of the Austrian Academy of Sciences (ÖAW).
