

11th International Congress Nanotechnology in Biology & Medicine 12 – 14 April 2023, Graz / Austria

BioNanoMed 2023

BioNanoMed 2023

We have the pleasure of inviting you to submit your scientific work to the 11th International Congress BioNanoMed 2023 – the exclusive know-how-transfer meeting for researchers, engineers, students and practitioners from natural sciences and engineering subjects throughout the world.

Call for Papers is open!

The scientific program of BioNanoMed 2023 will consist of invited lectures, contributed oral and poster presentations.

Technical Sessions

- Nanomaterials for Biomedical Applications & Regenerative Medicine
- Drug Delivery and Nanotherapy
- Nanotechnology for Imaging, Sensing and Diagnostics
- Biophysical Nanotechnology and Single-Molecule Technologies (*in cooperation with Johannes Kepler University Linz*)
- Pharmaceutical Nanotechnology and Drug Design
- Lipid Nanoparticle Gene Delivery Systems and Vaccines

Poster Awards

MDPI and Erwin Schrödinger Society for Nanosciences Poster Awards 2023 are granted to the three best poster contributions.

Exhibition

BioNanoMed 2023 serves as an excellent platform to present our company / institution, to promote your product portfolio and to establish direct links to a broad audience of experts.

Journal Publication

All authors have the possibility to publish extended conference proceedings or external contributions in a special issue of MDPI Pharmaceuticals “Nanotechnology in Biology and Medicine”

Organizers

BioNanoMed 2023 is jointly organized by Techkonnex – High-Tech Promotion, the University of Graz, the Medical University of Graz in cooperation with Johannes Kepler University of Linz.
