

Growing up in Science

Taking a peek behind their 

“Science, is made up of mistakes, but they are mistakes which it is useful to make, because they lead little by little to the truth”

- Jules Verne

The official CVs of scientists only show their successes. “Growing up in Science” arrives in Graz to take you on a journey to the behind-the-scenes stories of these CVs. Join us for the first event of the year and hear about the challenges, failures and coincidences that are intrinsic in science and that shaped the path of science personalities.

8th April 2019, 17:00 h

Uni Graz, SZ 15.21, Universitätsstraße 15, Section A, 2nd floor

Caroline Schober-Trummler

Biochemist and molecular biologist with long-term experience in international management, she has been the Vice-Rector for Research and International Affairs at the Medical University of Graz since 2016.

Discussion & Get-together
