If you are interested, please submit your application documents before the stated deadline. Make sure to indicate the reference number on your application and please send your CV and photo to:

bewerbung@uni-graz.at

The Field of Excellence "Smart Regulation" at the University of Graz addresses topics related to technical innovations. The flood of digital data, Industry 4.0 or self-driving cars are all innovations that have made a major impact on current regulatory and economic issues. How best to meet these challenges is a particular focus for researchers in law and economics, assisted by ethics researchers and psychologists. They explore issues such as possible regulatory models, behaviour management and ways to influence the decisions made by individuals, companies and society. The Institute of Accounting and Taxation is part of the Field of Excellence „Smart Regulation“. The Institute is characterized by research-based teaching and practice-oriented applications in the areas of tax consulting, accounting, auditing and finance.
