

Innovative Science for Successful Business
PARTNERING DAY
29 September 2015

The goal of International Partnering Day is to develop and strengthen cooperation between innovative companies and university scientists.

This event is being jointly organized by Styrian and Carinthian universities as part of the Centre for Knowledge Transfer South (WTZ Süd)

Scientists and companies will have the opportunity to establish contacts, present industrially-relevant scientific results and identify mutually-interesting areas of cooperation.

Broad scientific and company platform

Researchers from Styrian and Carinthian universities as well as international companies are invited to participate. This platform facilitates the discussion of a broad spectrum of topics in order to develop future cooperations. Furthermore, the Partnering Day offers networking opportunities for organizations that include a **short oral presentation**, a **poster exhibition** and/or a **personal bilateral meeting**.

Companies profit ...

... from the scientific know-how and knowledge brought by the universities. You are welcome to establish contacts with scientists from all fields of research, in order to efficiently foster product developments. Present your expertise and communicate your research and technology requirements.

Researchers profit ...

... from the opportunity to meet regional and international companies. Benefit from the opportunity to present your strengths and knowledge to companies. Submit your requests to strong partners from industry. During individual discussions you have the chance to interact face-to-face with industry representatives.

Agenda
