

At the University of Graz, researchers and students work across a broad disciplinary spectrum to enlarge our knowledge, and find strategies to deal with challenges our society is confronted with and to shape tomorrow's world. The University of Graz is a place which combines high quality academic research and teaching, where achievement is rewarded, careers are promoted, and social diversity is encouraged - all within a modern, award-winning working environment. Our motto: We work for tomorrow. Join us!

The Wegener Center for Climate and Global Change is looking for a

### **Student assistant in research project**

10 hrs/week, 01.03. - 30.09.2023 (possibly longer).

#### **Key responsibilities:**

Supporting the data curation of the [HIGH Horizons](#) project. Focusing on the development, cleaning and analytics of big climate datasets to be combined with health data.

#### **Requirements:**

Advanced bachelor or master student at the University of Graz with experience in programming in R or Python. Be able to communicate well in English. A passion for data science is essential. Previous experience with climate data is of benefit but not necessary as training will be provided.

#### **We expect:**

- The ability to process data efficiently in R or Python
- Attention to detail for methodologies
- Good communication skills
- Independent working on tasks
- a high level of competence in oral and written English

**We offer:**

- a nice international team and a beautiful campus
- flexible working hours, insights into an international research collaboration within the EU horizons program
- insights into data science for climate change and health research
- 6 month contract with possibility of extension
- Remuneration is in accordance with the Austrian public tariff scheme

**Please send your application until Feb. 8<sup>th</sup>, 2023** via e-mail to
