

SUSTAINABILITY AND INSTITUTIONALIZATION

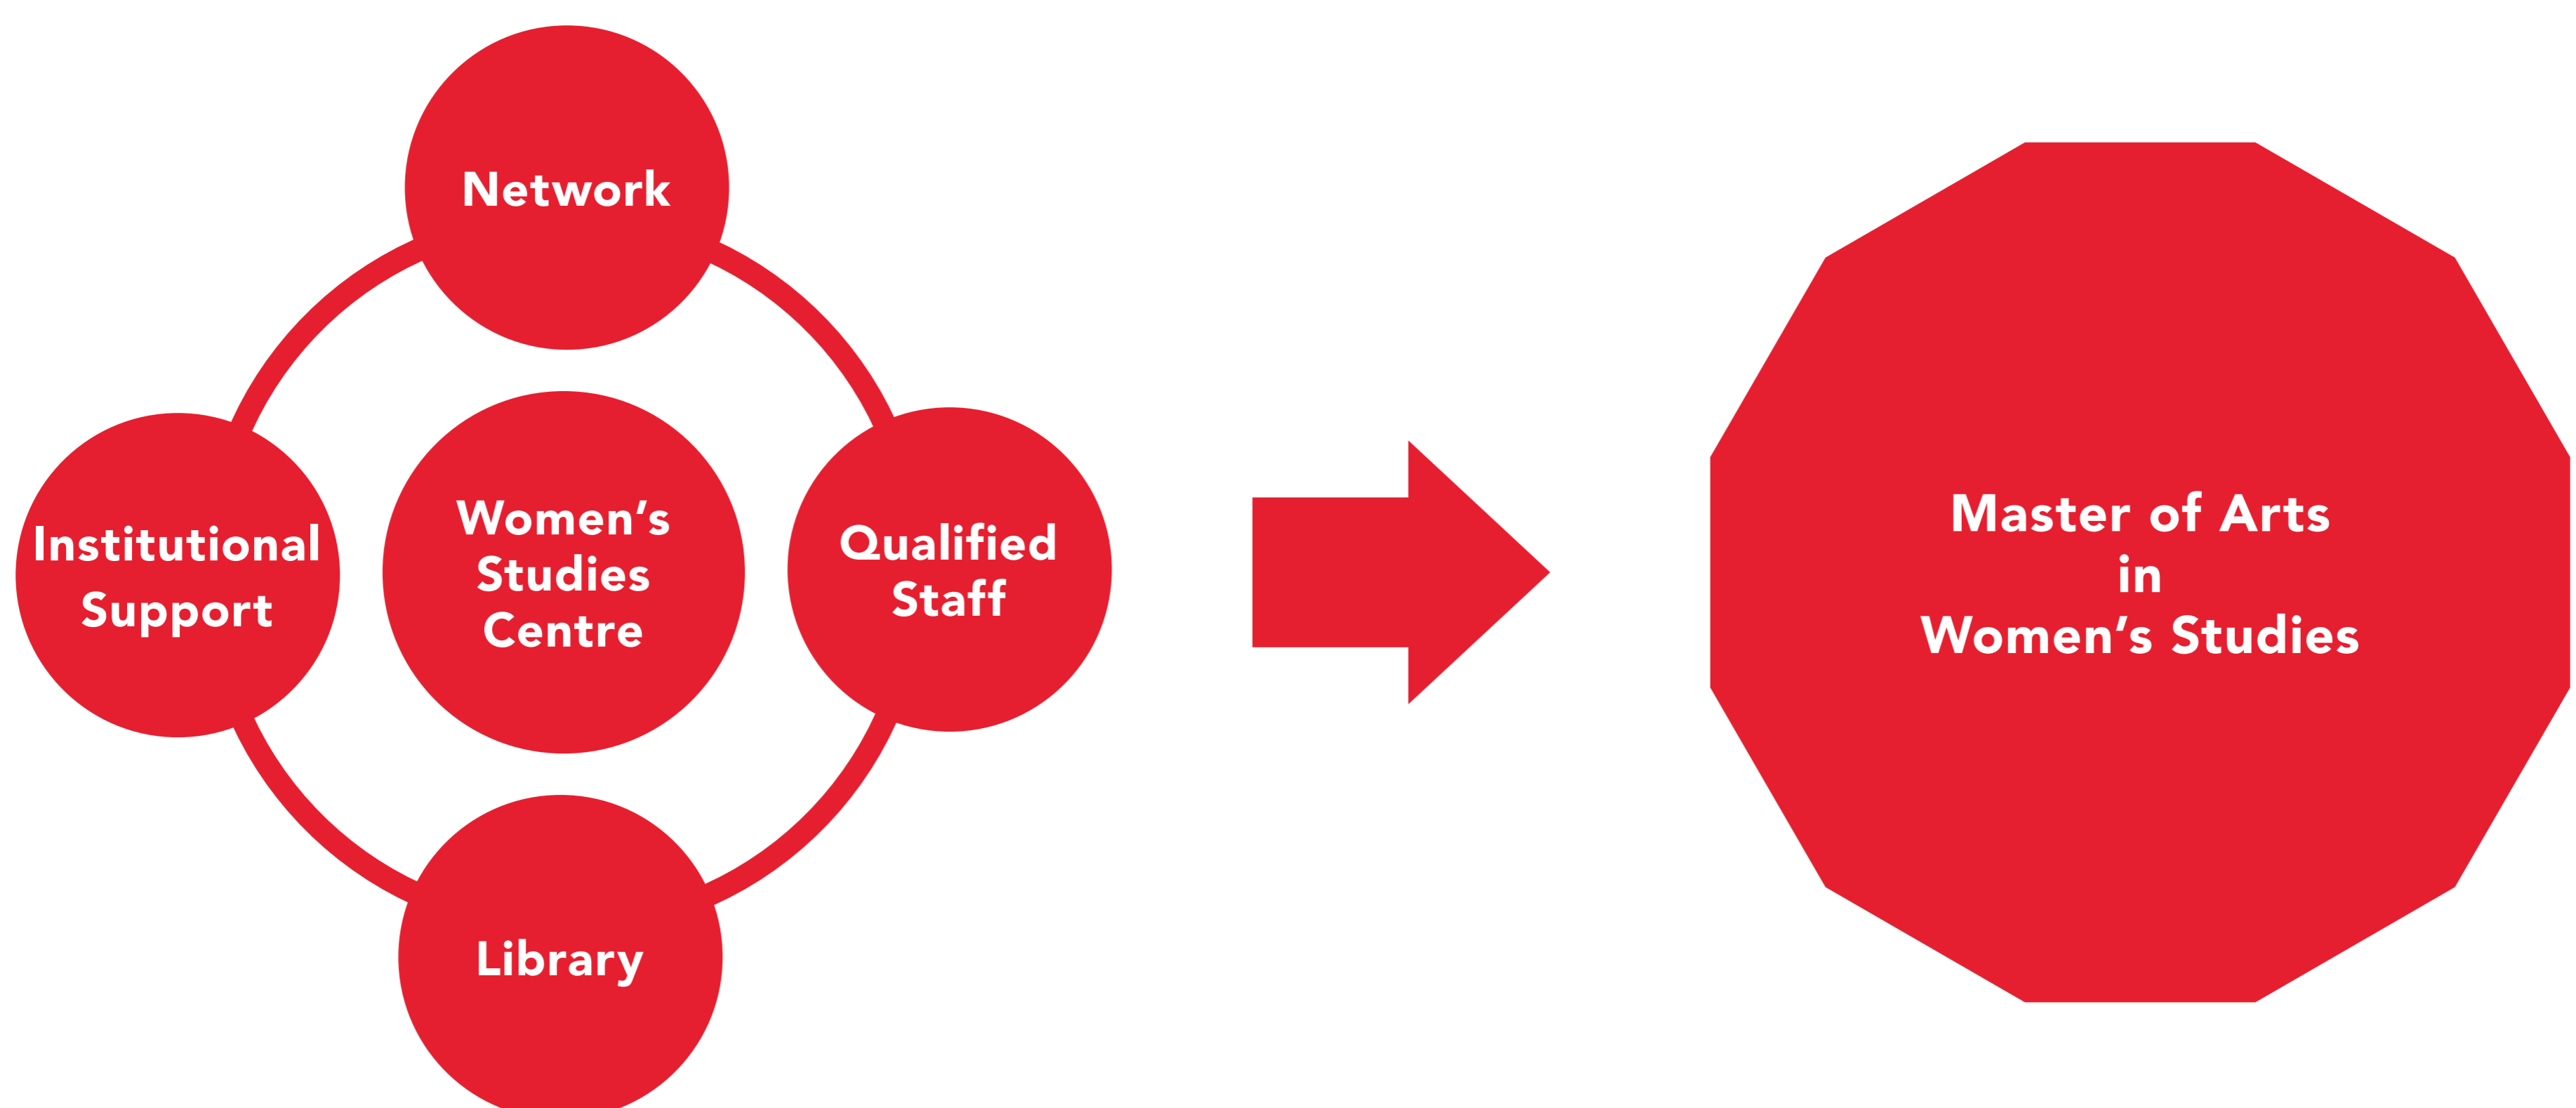

The IUG team established links of cooperation and support with other Palestinian universities, with governmental and non-governmental organizations, the UN administration, and the Austrian Development Cooperation Office in Ramallah.

The following activities institutionalised women's and gender studies in Gaza:

- Establishment of a **Women's Studies Centre** at IUG as a resource hub, fully integrated in the university structure (since 2018)

- **Dedicated section at the IUG library** for English and Arabic-language books in Women's and Gender Studies
- **Qualified staff** in women's and gender studies at IUG
- **Support** from IUG academic authorities
- **Network** of members of other Palestinian higher education institutions, governmental institutions and NGOs interested in women's and gender issues in Gaza and in the whole of Palestine
- **Master of Arts in Women's Studies** at IUG (currently pending accreditation, but plan to admit the first students in 2021)

OUR APPROACH TO THE INSTITUTIONALIZATION OF WOMEN'S/GENDER STUDIES
